

Making learning easy

Basics in Automotive Control Systems

Chapter one - ABS systems:

- General information for ABS brakes
- Bosch ABS 2S
- Teves MK II / IV

Chapter two - Traction control and electronically controlled throttle:

- Traction control and electronically controlled throttle

Chapter three - Electronic transmission control systems:

- Electronic transmission control systems

Chapter four - Cruise control systems

- Cruise control systems

Chapter five - Airbags and seat belt pretensioners:

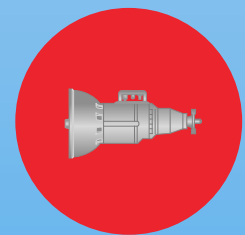

- Airbags and seat belt pretensioners

Chapter six - Multiplex systems:

- General
- Example
- Fault finding technology

Chapter seven - Other electronic systems:

- Suspension systems
- Collision warning
- Mobile phone systems
- Navigation systems
- Head-up displays
- UV-lighe
- 4-wheel steering
- Alarm systems
